Are you a native speaker of an Indian Language? Are you an individual with Aphasia?

- We are recruiting participants to investigate how bilingual speakers process and produce two languages
- Participants must speak an Indian Language (i.e. Hindi, Guajarati, Urdu, Tamil, etc.) and English
- Participants may be
  - healthy adults (no neurological illness; 18 years+)
  - have suffered a stroke and subsequent difficulty with speaking (aphasia)
- Total participation time is 2-4 hours
- Upon completion you will be compensated $20 (healthy adults) or $30 (persons with aphasia)
